Sir L. J. Grant,

Edinburgh University.

Dear Sir

I have to acknowledge with thanks your letter and with it reports of the Faculties of Divinity, Arts, Science and Law with regard to the instituting of a new degree or degrees such as would appeal particularly to graduates from the Overseas Dominions. The care that your Senatus and Faculties have devoted to this subject will I know be greatly appreciated by the Conference of Canadian Universities. I am sure that the willingness of the British Universities to meet the needs of the Overseas Universities will in the long run be of great advantage not only to us but to all those who are interested in the maintenance of British eleadership throughout the Empire.

With kind regards, I am,

Yours sincerely,

President.

January 4th, 1918

Sir Ludovic Grant, Bart.

University of Edinburgh.

Dear Sir Ludovic:

I have to acknowledge with many thanks your letter enclosing a copy of the report of the Faculty of Medicine dealing with facilities for graduate students from the Dominions. I am sure that the action of the Edinburgh Faculty of Medicine in recommending that the degree of Ph.D. be conferred upon medical graduates of approved Universities on the terms that are specified will appeal to our Dominion Universities. Will you be kind enough to say to the Senatus that I will lay your communication before the Conference of Dominion Universities which meets in Ottawa next May ?

With the compliments of the season,

I am,

Yours sincerely,

President.
